January-June 1968

## Associations

CEC-AIA Visit Capitol Hill, *Stanley Cohen*, p264, March.  
CEC Tries New Format, p168, January.  
CEC's Meeting & Management Conference, p168, June.  
CEC's 1968 Engineering Excellence Awards, p28, June.  
CEs Seek Expanding Role, *Ralph S. Torgerson*, p152, April.  
A Do-it-Yourself Promotion Program, *Lewis L. Zickel*, p112, April.  
Fly to FIDIC in Wiesbaden, p104, April.  
Getting Effective Legislative Action, *Donald P. Schnacke*, p146, April.  
Housing Shortage to Stimulate Building Demand, *Ralph S. Torgerson*, p242, March.  
IEEE, AIChE Withdraw from EJC, *Stanley Cohen*, p70, February.  
Imagineering for 1980, p140, April.  
Make N. Y. in May; the CEC Convention, p 96 April.  
Making Your Services Known, *William F. Jones*, p154, June.  
Mayor Lindsay Welcomes Consulting Engineers, p94, April.  
M/Es Attack Their Problems, *Ralph S. Torgerson*, p110, February.  
New York . . . CEC's Convention Town, p98, April.  
NSPE; PEPP Meet in Capital, *Florence E. Brant*, p116, February.  
NYACE Explains "Dropping" of Metcalf & Eddy, *Stanley Cohen*, p254, March.  
PEPP Board Meets in Houston, *Milton F. Lunch*, p136, April.  
Problems and Progress — CEC Reports, *Donald A. Buzzell*, p110, January.

## Business Aspects

The Advantages of Belonging . . . to Bangor Punta, *Harrison P. Eddy, Jr.*, p104, May.  
The Challenge of Overseas Work, *John D. Cole & Stanley A. Moe*, p78, February.  
Consortiums Seldom Succeed, *Benjamin S. Persons*, p122, June.  
Dames & Moore Opens New Offices, *William Enkeboll*, p102, February.  
Do You Want a Union Agent for a Partner?, *Kenneth C. McGuinness*, p150, May.  
Engineers Discuss Employer-Employee Relations, p182, January.  
Engineers Share TELCOMP, *Stanley Cohen*, p104, February.  
The Engineer's Stake in Free Trade, *George R. Young*, p130, January.

Facing the Union Problem, p176, January.  
How to Stay Out of Court, *Joseph A. McQuillan*, p74, February.  
The Importance of Printed Promotion, *Earle M. Rader*, p106, May.  
Interprofessional Teams Within a Firm, *Lee E. Ham*, p131, June.  
Organizing a Client Development Department, *Peter A. Cipriano*, p90, May.  
Setting Up and Staffing Branch Offices, *Taylor C. Vest*, p124, May.  
A Survey of Engineering Firms, *Staff*, p112, January.  
To Keep a Client Happy, *J. Edward Genheimer*, p94, May.  
The Tell-Tale Smell of Bad Management, *Harry H. Rains*, p142, June.  
Union Moves . . . and Countermoves, *Harry H. Rains*, p96, February.

# Quality Air Handling Equipment with Flexibility to Meet the Conditioned Air Requirements

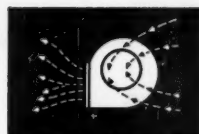

COOLING

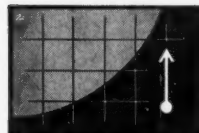

DEHUMIDIFYING

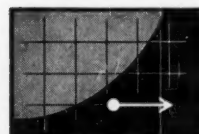

FILTERING

VENTILATING

HUMIDIFYING

HEATING

Flexibility is the keystone to the usAIRco Central Station Air Handling Units. Combinations of varying blower, coil, filter and accessory sections permit selection of components to meet the application. The wide range in CFM and the various configurations provide versatility to meet the complex system needs from process rooms to simple heating or cooling required in all types of commercial buildings.

Check these all important features:

1. Large blower outlet areas for low outlet velocity.
2. Double drain pans insulated with 1" fiberglass insulation — to prevent condensation from forming.
3. Structural angle frame construction cooling coil sections.
4. All coils are removable without disassembling the unit.
5. Units shipped in 2 or 3 basic sections to reduce major assembly at job site.
6. Ceiling suspended units are mounted on channels requiring no additional supporting framework.

For specifications and performance data write for Bulletins
